

Services available

We offer a wide range of support around research and evaluation, which is tailored to each organisation's specific needs. This menu is intended to give you an idea of the levels of support we can offer and the costs associated, but each request will be considered individually and we try our best to deliver the right support within your budget and timescale.

'Bronze' tier

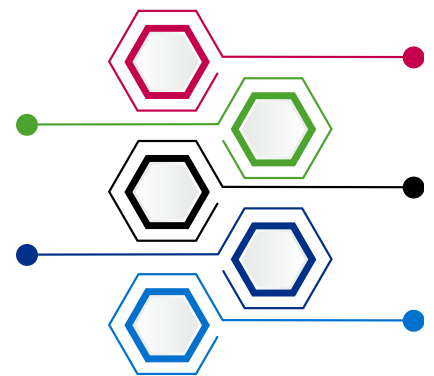

This 'light touch' option works well if:

- You are looking to evaluate or pull out the key themes from information that you have already collected
- You have a limited timescale or budget
- You have clear measures to evaluate or research questions

Example projects:

- Infographic to summarize the outputs, successes and challenges of a project

£2k - 4k

'Silver' tier

£4k - 8k

This mid-tier option works well if:

- You already have some data, but some more needs to be gathered to provide a wider view, for example:
 - Conducting a survey
 - Interviewing people who have used your service
 - Interviewing staff, volunteers or key stakeholders
 - Holding focus groups
 - Holding events or using more participatory methods to collect people's views
- You are looking 'benchmark' your work against local or national data
- You have clear measures to evaluate or research questions
- You are looking for advice around evaluation frameworks and how to embed evaluation in projects going forward

Example projects:

- Summary report with themes, recommendations, case studies etc.
- Video summarising people's views on the strengths and challenges of a project

'Gold' tier

This option works well if:

- You have little or no data already gathered
- You are looking to gather a wide range of data from multiple different sources, for example:
 - Using local or national data
 - Conducting a survey
 - Interviewing people who have used your service
 - Interviewing staff, volunteers or key stakeholders
 - Holding focus groups
 - Holding events or using more participatory methods to collect people's views
- You may not have a clear set of measures to evaluate, or a clear research question (for example, if the focus of the project has evolved over time)
- You are looking for multiple outputs, for example presentations or videos alongside a report

£8k +

Example project:

- Evaluation of multiple projects in achieving an organisation's overall mission, aim or theory of change
